

Q3 2026 QUARTERLY REPORT - Nordlicht Analytics

Revenue grew 18 percent year over year to 4.2 million EUR, driven by the enterprise plan. Gross margin improved from 71 to 74 percent as hosting costs fell. Annual recurring revenue reached 15.8 million EUR across 312 customers.

Risks and outlook

Our largest customer accounts for 11 percent of revenue; losing it would delay profitability by two quarters. Currency swings against the US dollar remain a risk. We plan to hire six engineers and two account executives before year end.
